'Pop' Pops

YOUTH PULLS STICKUP AT OPEN-AIR MARKET

Clerk Charles R. Landers is known affectionately as "Pop" to his customers at the Farmers' Exchange market, 24112 Narbonne avenue—and likewise to the young man who shoved a gun in his ribs last Friday morning.

Landers was enjoying his 1:30 a.m. lunch at the all-night, open-air establishment when the man ambled in.

"Okeh, 'Pop' give me the cash register," the youth intoned, backing up his statement very effectively with a blue-steel automatic.

Landers was forced to walk up front to the check out stand where he was told that only bills, halves, and quarters would be sufficient.

"If you knew why I need this you wouldn't blame me," he plaintively informed "Pop."

Then Landers was forced to squat down and warned to remain there for 10 minutes.

The young man with the gun, whom Landers described as about 18 years old, scooped up the cash—a paltry \$25.

As the youth took off on foot south along Narbonne avenue, "Pop" was sure he'd seen the guy before.

No. Drop in Auto Demand Predicted

Basic demand for transportation of 1,620,000 cars a year were taken out of service, compared with less than 900,000 annually since 1941. Since the automotive Digest declared recently. The trade paper, pointed out that in the past 24 years an average of 1,620,000 cars a year were taken out of service, compared with less than 900,000 annually since 1941. Since the automotive Digest declared recently. The trade paper, pointed out that in the past 24 years an average car is now nine or ten years old, it appears that the number to be scrapped each year during the next decade will be abnormally high. It must be concluded, that replacement demand cannot shrink much under such conditions.

The motor vehicle output in the United States and Canada for March was nearly 540,000 cars and trucks, a post-war monthly record. First quarter production was about eight per cent ahead of last year, and it was estimated that passenger car output in the second quarter would be 15 to 20 per cent ahead of the first quarter. This would make the April-June period the highest since 1937.

A String to It

When ready to pour paraffin over jelly, place a string across the top of the glass with ends dangling over the sides. When the jelly is ready to use, tug at the strings—the paraffin seal is removed instantly and neatly.

Brabar Jackson to Head Local Jr. Statesmen

Barbara Jackson will swing the gavel of the Torrance High School chapter of the Junior Statesmen of America during the 1949 school year as newly elected president.

The sophomore student was chosen to succeed Don Zurschmit as head of the organization at an election held this week at the high school, announced Edwin A. Reynolds, faculty sponsor of the group. Other officers will be elected at a later date.

Nine representatives of the organization Saturday attended an all day regional convention held in Montebello. They were accompanied by Reynolds and Mrs. Kathlyn Davis of the high school. The group included Zurschmit, Larry Fischer, Barbara Specht, Donna Geary, Miss Jackson, Elvira Lindenberger, Lynn Davis, Walter Stamps, and Audrey Wright.

The convention adopted a resolution in favor of the Hoover Commission's report to congress.

West Basin Supports MWD Voting Change

Board of Directors of the West Basin Municipal Water District, which includes Lomita, has agreed unanimously to support the Pomona-Ontario district in its effort to gain admittance to the Metropolitan Water District of Southern California.

The Pomona-Ontario area seeks passage of Assembly Bill 2174, which would change the voting procedure of the Metropolitan Board on matters relating to addition of new territory to the District.

West Basin, which is a component member of Metropolitan, sent a copy of the supporting resolution to Assemblyman Glenn M. Anderson and urged his continued effort to secure its final adoption.

Food Pamphlet Can Be Had

"If You Eat Home Canned Food, Read This" is the title of a pamphlet which the Los Angeles county health department is offering housewives now that summer home canning season is at hand.

According to Dr. Kenneth H. Sutherland, Assistant county health officer and director of the bureau of preventable diseases, the pamphlet gives some excellent pointers on proper home canning.

Copies of the pamphlet are available at the health center, 2300 Carson street.

\$50 Bulldog, Tools Taken at Lomita Home

Arthur W. Waller heard a noise about 11:30 p.m. last Wednesday night at his 25825 Narbonne avenue home. Then he saw a man and woman leave the premises. When Waller gave his place the once-over, he found his \$50 bulldog, a \$35 tool box, and \$5 worth of jars missing.

Lennox deputies, to whom he told his story, are investigating.
